Description

SIFARMA Spa is an Italian company with over 25 years of experience in the dermatological and aesthetic medicine domains. Through innovative and highly advanced scientific research, SIFARMA is established as a knowledgeable expert in the production of functional dermocosmetic ranges and professional skincare treatments. SIFARMA's well-known and prestigious brands include Canova and Dermatrophine Pro, together with O.P.I., Payot and Marbert, for which Sifarma has been the exclusive distributor in Italy for more than a decade and so far confirmed. Building on its achievements in the local market, Sifarma is now expanding internationally. After undertaken a detailed export study, Sifarma has put all its plans into practice and started exporting in UE and extra UE countries its own label functional dermocosmetic skincare brands CANOVA® and DERMATROPHINE PRO®.

Offer

CANOVA functional dermocosmetic skincare range for the wellbeing of your skin

CANOVA® is an innovative, 100% Made in Italy, functional dermocosmetic skincare range specifically formulated to offer effective solutions to the major skin problems.

Exclusively distributed in Pharmacy, CANOVA® dermocosmetic face & body skin-care products contain innovative complex of active ingredients at their exact functional concentration to treat the specific skin blemish, such as Acne, Chrono & Photo Aging, Hyperpigmentation and Dermatitis.

All CANOVA® products are clinically tested for their tolerability and safety, are declared paraben and fragrance free and Nickel tested. Physical, chemical and microbiological analysis ensure even extremely sensitive skin high

tolerability to all CANOVA® products.

CANOVA® proved efficacy is supported by medical trials led by the most prestigious Dermatological Clinics and Universities in Italy, such as Bologna, Pavia and Naples.

Thanks to its rational formulation and proved efficacy CANOVA products give visible and immediate results
