Country

Italy

City

San Donato Milanese, Via Triulziana 36 [Google map](#)

Areas of Activities

Advanced Mechanics /Industry 4.0

Industrial maintenance

Engineering

Agro-food

Offer

Renewable Energy and Water & Waste Treatment Plants

E4SD is a Consortium of Italian SMEs, (Energy for Sustainable Development, E4SD Ltd) operating in the rational use of natural resources as an EPC (Engineering, Procurement and Construction) operator of Renewable Energy solutions (mini hydro, wind, photovoltaic, energy efficiency etc.) and Clean Technologies (Water treatment, Waste Management etc.),

with a track record of several hundred MW installed. We are operating at international level Should it be required we are also able to find international investors for profitable projects. Moreover, our activities are particularly focused on the development of innovative solutions through university spin-offs that are part of our network.
