Description

CONDOR is one of the main European industrial company with a 30-year experience in the design, production and sale of FORMWORK and SCAFFOLDING. Our range of products includes: - Scaffoldings - Wall formworks - Slab formworks - Shoring structures - Trench lining for safety in excavation works - Structures for Entertainment events, such as stages, galleries and coverings. Our wide range of scaffolding and formwork are spreadly used in a number of different fields such as residential, civil, industrial and infrastructural works, other than restoration, maintenance, reconstruction and demolition for Oil and Gas structures, including Onshore and Offshore platforms. Our Technical Department is able to support you from the very early stage of project planning, being able to provide a wide range of services such as design, calculation, supervision and jobsite assistance. We cooperate with the main contractors all over the world thanks to our certified quality standards and the professionalism and seriousness of our staff.
