

SILVANA FRATTINI

Owner

GISMAL srl

<http://www.gismal.it>

Description

Our business was established in 1982 from a small business reality with TORNOS high precision machines, the strong work experience obtained from many years in Switzerland (has seen to the fact that the company immediately characterized its attention on detail). During these years Gismal has gradually incremented its number of machines to reach 43 automatic lathes cam (M4, M7 with arrest and R10 various stop and various camme) with 5 CNC lathes "CNC DECO", "CNC DELTA", "CNC RANGE" and 2015 "SWISS NANO" that produce small series and / or samples. Our desire to be more and more reliable, accurate, and the quality of the product we are certified according to ISO 9001. With the certification we keep up to date training courses, we manage our suppliers and keep our business through controlled management NC shrinking and customer satisfaction
