Description

The Barranca organic farm sits in the Jonic hills along the "Riviera dei Gelsomini", or Jasmine Coast, in the township of Siderno, Reggio Calabria. From the planting, nurturing and caring of the olive tree to the bottling of the "green gold", this olive farm is run with the same passion and care as a family. Immediately after production, the oil is preserved in special rooms at controlled temperatures in stainless steel containers which protect it from light and air. It is bottled directly in our company.
