GREEN LUXURY SUITE TOWN HOUSE HOTEL

The first and only luxury hotel in Duomo Square is now a reality

The green Suite Massimiliano Mandarini is a new innovative model of smart green luxury living. The project borrows to create a space that is in the same time highly innovative, sustainable and aesthetically evolved. It represents a new model of enjoyable life style in which live a sensory experience in architecture and design through the five senses: by the scent of the wood, the sounds, the colors, the contrasts and the suggestion of warm and cold, soft and rough materials that make up the space and through scenarios of lights and shapes for a space in continuous change from the times of the day, with environments and materials in harmony between man, nature and technology for a new concept of sensory Luxury.
